ULTRAFRESH SILPURE

NATURALLY ANTI-BACTERIAL / NATURALLY ANTI-STATIC

Based on natural silver, Ultrafresh Silpure is a new generation of an anti-bacterial treatment for textiles. A durable, topical application providing protection and freshness from potentially harmful and odor causing bacteria. Silver is naturally safe and has the power to fight bacteria, contamination and maintain freshness. The excellent adhesion of silver to the fibers means these properties remain strong even through repeated washings.

Our knitted fabrics with Ultrafresh Silpure aids with anti-static properties allowing a more restful sleep.
